This list is a compilation of frequencies from Rife frequency researchers. Here you can find the biggest rife frequency database in the world. You can experience these frequencies and see whether they work for you. If a frequency program makes you feel uncomfortable, please stop running it until you feel better. Please note that these frequencies are only for experiments.

Feel free to share with us what frequencies have helped you overcome your health problems. Happy rifting!

Spooky2 has the biggest rife frequency database in the world. It has 13 sub-databases, including BP, DNA, MW, PROV, CAFL, KHZ or BIO, etc. Most people are wondering what these abbreviations mean. Here is a breakdown of what each one is:

- PROV has produced consistent results in virtually all subjects it was used with.
- MW is a collection of about 8,000 programs for drugs, supplements, and molecules important to health.
- BP is a collection of more than 10,000 programs for human, animal, and plant pathogens based on their base pair values.
- DNA is a collection of about 1,700 programs for virus, bacteria, pathogens based on their DNA.
- BIO and VEGA are both excellent, based on Russian frequency research.
- CAFL is the Consolidated Annotated Frequency List, amassed from the experience of Rife experimenters over years.
- XTRA is a collection of sets from various sources, all chosen for their reputation for effectiveness.
- CUST is your own personal database.
- RIFE is a collection of Dr. Royal Raymond Rife's original frequencies.
- HC is Dr. Hulda Clark's database.
- ETDFL is a collection of programs researched in Bioresonance Clinics in Germany.
- KHZ is a collection of higher frequencies.
- ALT consists of sets based on Ayurvedic knowledge and practice, Solfeggios, and planetary frequencies.

Spooky2 not only includes all these rife frequencies. Users can also customize their own frequencies at their wish.

Here we select plenty of useful frequencies to make this frequency list for your experiment!

How to apply frequencies?

The easiest way to understand Rife and Spooky2 is to see it as a futuristic multi-function gun that can shoot different types of bullets. Diseases are caused by things living in your body which shouldn't be there, so you must kill them. Other conditions are caused by organs or body systems malfunctioning, so you must heal them, or bring them back into line.

Spooky2 Rife can shoot two types of "bullets" – killing and healing using Rife frequency generators. The bullets are Rife frequencies. Frequencies are very special because they are made from invisible electromagnetic energy, not metal. Depending on the waveform that is used to shape how the bullet behaves, each bullet can deliver multiple strikes to the targets in your body.

How does it find those targets? When you know the frequency for a germ, use a frequency generator to transmit it into your body. This will cause that germ to vibrate.

Through vibration, pathogens and parasites are cut to pieces. This is blow of positive energy is immediately followed by a blow of negative energy, and these huge energy jumps are what destroys small organisms.

Why Choose Spooky² Rife Machine?

— A choice that makes the difference —

Spooky²

Spooky² is the most highly advanced and versatile Rife system in the world. It's been developed since 2013 by an international team of electronics engineers, technical designers, software developers, and Rife practitioners. Back then, there was no publicity or fanfares. However, news spread quickly by word of mouth, and thousands of people around the world got their hands on a Rife system that was second to none, equaling and even bettering what most commercial manufacturers had to offer.

Nowadays, we can say without fear of contradiction that there isn't a single Rife system on Earth that even comes close.

What is a Rife Machine?

Rife Machines use the principles of Royal Rife, a brilliant scientist who lived during the last century. He performed thousands of experiments, each proving that cancer has a viral cause, and that damaging this virus usually resulted in a cure. He also discovered that microorganisms can be destroyed using frequencies.

The phenomenon can be explained using the analogy of an opera singer who can shatter a crystal glass with her voice. The glass is naturally vibrating at a certain frequency, and when the singer sings a continuous note at that frequency, the glass shatters.

In theory, each microorganism (fungi, bacteria, virus, parasite, amoeba, mold, etc.) has a unique and specific frequency (or Mortal Oscillatory Rate). When you transmit more of this same frequency to the microorganism, it causes structural stress, and the pathogen is disabled or dies. Rife resonators generate resonance waves that destroy harmful pathogenic organisms without doing any harm to the users.

Why is Spooky2 better?

Spooky2 is the most effective and affordable Rife treatment system available today. Free software updates and our world's largest frequency database ensure Spooky2 will always be superior. But there are many more reasons to choose Spooky2.

Right from the beginning, Spooky2 has provided a convenient way for people to treat themselves without being tethered to a machine. At Spooky2, we offer good, honest health solutions without obscene profit margins. We dedicate to bring back health for you and your family using affordable Rife machines. Therefore, our costs are kept as low as possible.

Spooky2 also has a great community support. There is an active online forum and Facebook groups that allow you to meet other Spooky2 users around the world and exchange ideas. With the Spooky2 Rife System, we rest assured that you will never be alone.

Spooky2 Transmission

Spooky2 is the first Rife system to offer all five modes of frequency transmission. Use all five modes for total coverage - or stick to the one that suits you best.

The choice is yours.

Plasma Mode

Spooky2 Central is our flagship Rife machine and centre-piece of the Spooky2 Rife System. This astonishing machine has the super plasma originally used by Dr Rife. It is the only machine we know of that can transmit frequencies of up to 3,500,000Hz (3.5MHz) without needing any wasteful and potentially harmful fixed carrier frequency.

It is many users' favourite due to its super effectiveness in serious diseases, like cancer and Lyme. Plasma Mode is the most powerful among all Rife products. Every component that goes into building Spooky2 Central - including the rugged case and wiring - is mission-critical military-grade. This makes the machine eminently suitable for heavy-duty clinical and research lab use as well as for everyday domestic situations.

Contact Mode

Contact Mode is a highly effective way to introduce frequencies into the body and get them working quickly. For many Rife enthusiasts, they tend to use Contact Mode machines than any other type.

Spooky2 allows you to create a dynamic carrier that's harmonically related to the audio frequencies, which adds therapeutic value, and use this in Contact Mode. It has different kinds of Contact accessories for different situations usage, including Spooky2 Conductive Carbonized Rubber Hand Cylinders, TENS pads, TENS Contact kit, TENS Internal Electrode, etc.

Remote Mode

Spooky2 Remote applies healing frequencies at any distance using the recipient's DNA to treat people. It uses the principles of quantum physics and the antenna properties of DNA to transmit through non-local space. Modern physicists named it "Quantum Entanglement." To put it simply, it means that if any part of a single system is removed from that system to a different location, any action performed on the part will also be instantaneously performed on the parent system and vice versa.

Remote treatments can fit perfectly into your busy lifestyle. When you're doing treatments with Spooky2 Remote, you don't have to be in the same room or in the same country. Only your DNA is needed in the treatments.

Cold Laser Mode

Cold laser, also called Low Level Laser Therapy (LLLT), uses safe, non-thermal light photons to accelerate the body's natural healing processes. This light energy can penetrate right through all the layers of our skin with ease. It's especially useful for pain, joint and neurological problems, wounds and burns, dental issues, lymph node swelling, tinnitus, bone and tissue regeneration, and more.

In Spooky2, we have two different Cold Laser accessories that can be used for CLT. Spooky2 Cold Laser Wrist is designed to be worn around the wrist, where it can easily treat the entire blood supply, the carpal tunnel, and the meridian complex, but it can also be used on other areas. Spooky2 Cold Laser Twin is used for pinpoint application to any area of the body, and can be used in the mouth, or inserted into ear canals and nostrils.

PEMF Mode

Pulsed Electromagnetic Field Therapy, better known as PEMF, is a safe and natural way to literally recharge your body so it can travel the path to better health. PEMF targets your body at a cellular level to stimulate cell metabolism and improve your health. Numerous disorders, diseases and injuries benefit from PEMF treatments. And they do not have the harmful side effects that are commonly associated with prescription drugs and medical procedures.

Spooky2 has a product called PEMF coil which can be used for healing and frequency entrainment. It can control all types of pain, particularly in bones and joints.
